Dear Dr. Prieto,

We heard about your willingness to host and organize the WEEF2013 in your country.

May I promise you the full support of IGIP and also myself. We will cooperate with you to make the event a full success.

IGIP together with the IAOE (both are members of IFEES) would like to organize a workshop
"A Global Grid of Educational Online Laboratories – Status, Current Tasks and Future Developments".

I as well as other leading members of IGIP are ready to act as members of the conference's scientific committee.

Please don't hesitate to contact me in case of further activities needed.

Sincerely,

Michael E. Auer
President
